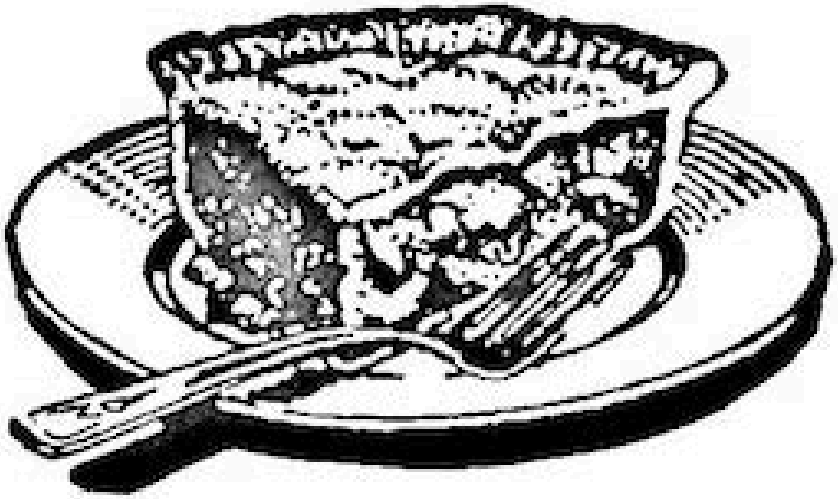
Apples

(malus domestica)



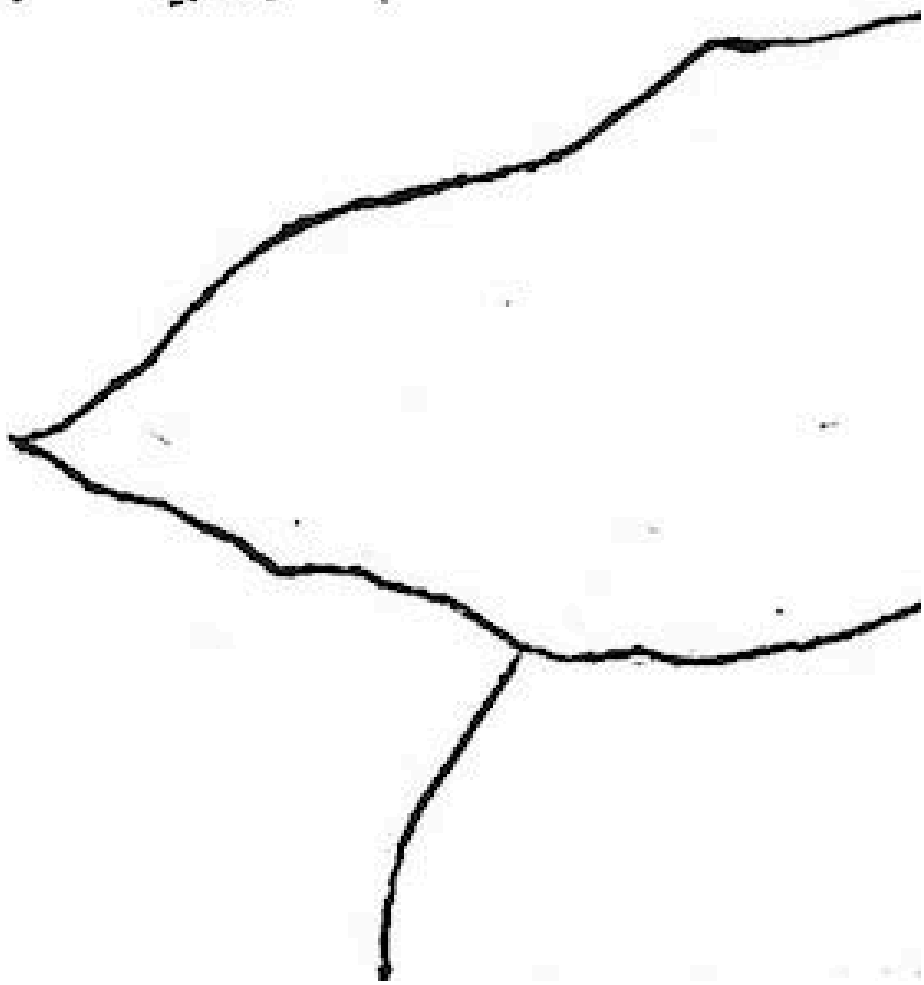
In Colonial

times apples were

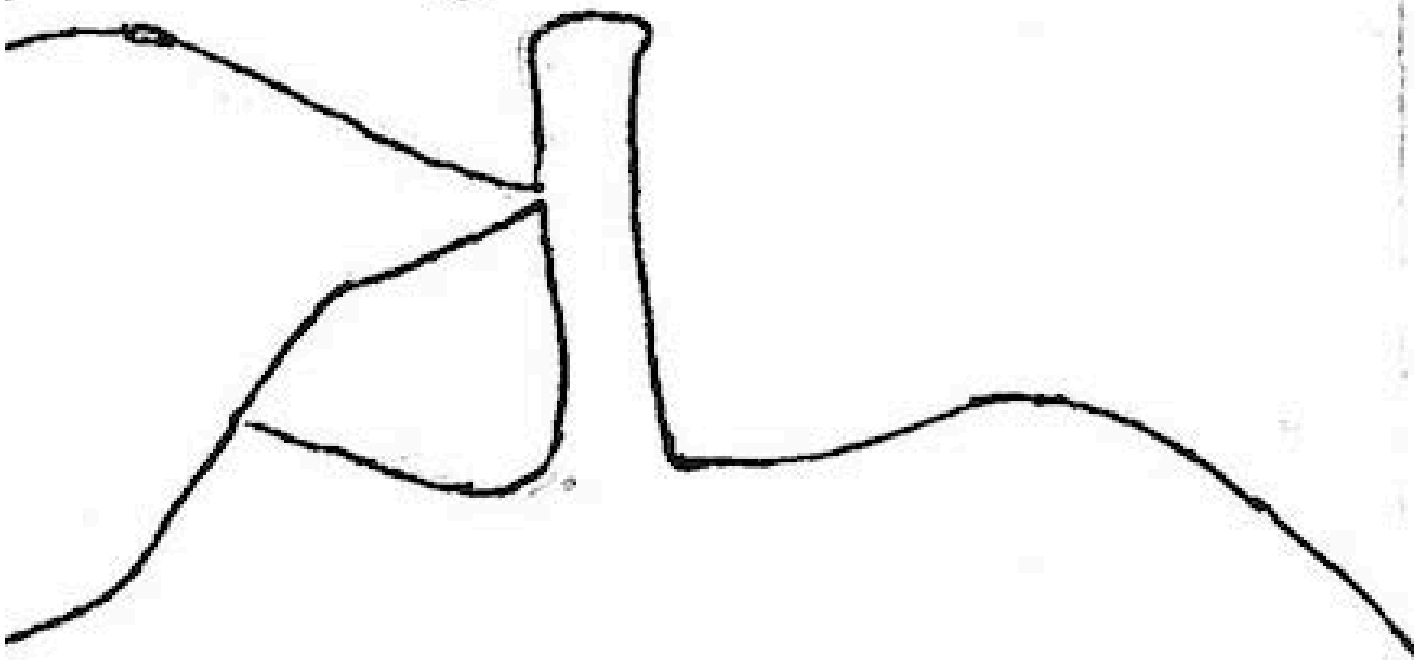
called winter-bannas

or

melt-in-the-mouth

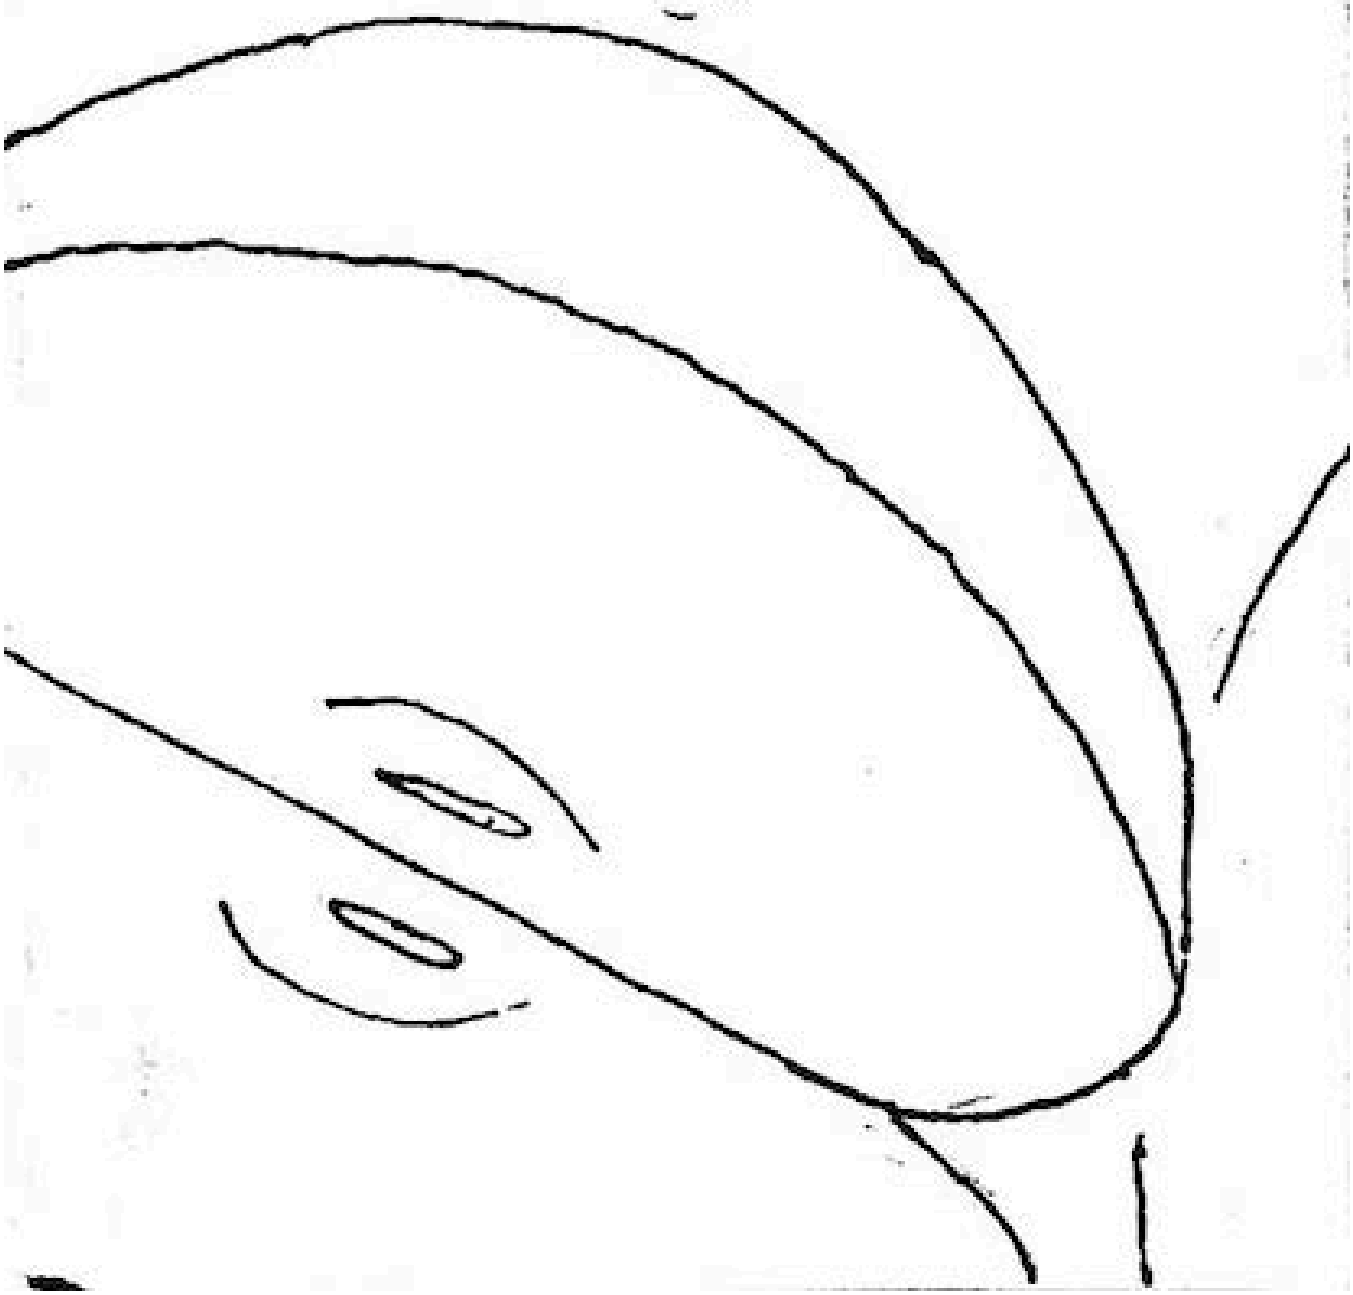


Apples can be used
to control diarrhea
or constipation they
are also used to
prevent cancer espically
lung cancer

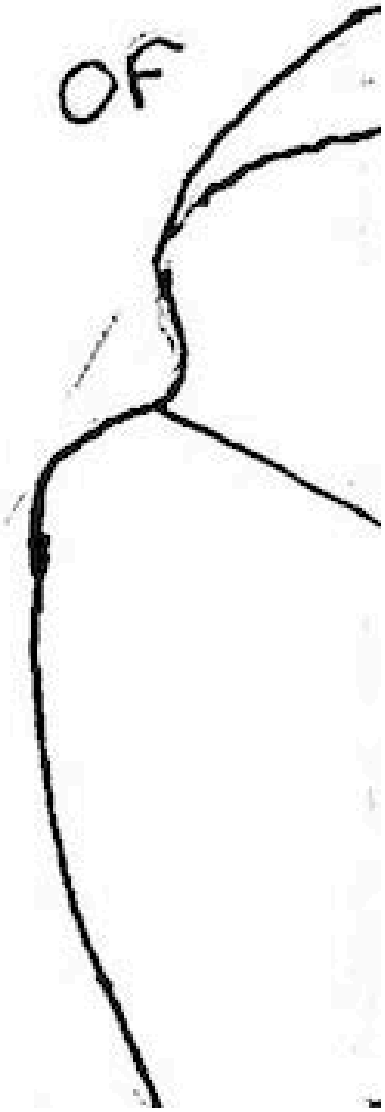


The best way to pick an apple is to cup it with the palm of your hand. Then lift it up and give it a gentle twist until it comes off with the stalk

Apples were the favorite fruit of ancient greek



DNA analysis indacates that apples orginated in the mautains of Kazakhstan



Apples
(malus domestica)

DNA analysis indacates that apples orginated in the mountains of Kazakhstan

Apples were the favorite fruit of ancient greek

The best way to pick an apple is to cup it with the palm of your hand Then lift it up and give it a gentle twist until it comes off with the stalk

In Colonial times apples were called winter-bannas or melt-in-the-mouth

Apples can be used to control diarrhea or constipation they are also used to prevent cancer espicially lung cancer
